Types of Deep Learning

1) ANN - Artificial Neural N/W
2) CNN - Convolutional NN
3) RNN - Recurrent NN
4) Auto encoders
5) GAN - Generative Adverserial N/W

Applications of Deep Learning

1) Self driving car
2) Game Playing Agent
3) Virtual Assistant
4) Adding audio to mute videos
5) Image caption Generation
6) Text Translation
7) Pixel Restoration
8) Object Detection

8) Object Detection

9) GAN

10) Deep Dreaming
